

5.10—ARTIFICIAL INTELLIGENCE - School Board Policy

Definitions:

“Artificial Intelligence (AI)” means machine-based system that can, based on a given set of human-defined objectives, make predictions, recommendations, or decisions influencing a real or virtual environment.

“AI Tools” means Software, hardware, or cloud-based applications that use AI to aid in tasks like content creation, data analysis, and personalized learning. For purposes of this policy, AI tools does not include items such as spell check or grammar check.

“Automated decision tool” means an AI tool that has been specifically developed and marketed or specifically modified, to make or to be a controlling factor in making consequential decisions.

The Nemo Vista School District Board of Directors desires to provide guidance for the appropriate use of AI technologies in curriculum development, instruction, and related educational activities that is aligned with the Arkansas Academic Standards and safeguards student data and privacy while encouraging innovation.

- Any AI tools or programs utilized by the District must adhere to State and federal laws; State rules; and Federal regulations governing data use, privacy, and security. Any AI tool used must comply with the District’s policies on data privacy and security, especially concerning student information.
- The District shall provide resources to support the integration of approved AI tools.
- All curriculum and instructional materials that were created with AI tools shall align with the Arkansas Academic Standards and District educational goals.

Staff shall document the extent and manner AI tools were used in the creation of curriculum or instructional materials. Staff shall ensure the content created with the assistance of AI tools is accurate and free from bias.

The District shall regularly review the impact AI tools have on the District’s educational outcomes and shall update this policy as necessary following the review.
