Mrs. Cunningham ccunningham@nemo.k12.ar.us

Mrs. Farris: Math

- Next week in math, we will be working on dividing whole numbers to create fractions. Students will divide whole numbers to find the value of simple fractions. They will read and understand word problems that involve division of whole numbers.
- We will complete a quiz on Friday, in which students will show the relationship between division and fractions, and will solve problems involving division of whole numbers leading to answers that are fractions.

Mrs. McKissen: Literacy and Social Studies

- We will be finishing our unit on realistic fiction and learning more about complex sentences. There will be a test on Friday over sequence, plot, context clues, and sentences. We will also do an AR test on our story "One Hen."
- Please encourage your child to read every night.

Mrs. Cunningham: Science

- In Science we have been learning the safety rules that must be followed in a Science lab and the different types of tools that are used in Science.
- Next week we will begin our Amplify Science curriculum. Our first unit will be over the Patterns of the Earth and Sky.
