Mrs. Farris: Math

- Welcome back to school! In math, we are finding the volume of a rectangular prism by multiplying length x width x height. We will have a quiz on volume this Friday. You can help your child prepare for this by reviewing multiplication facts at home!

Mrs. McKissen: Literacy and Social Studies

- We will continue talking about narrative nonfiction. Students will be writing their own narrative and we will have a test on Friday over the story we have been reading this week.
- Please encourage your child to read every night. We will be STAR testing next week.

Mrs. Cunningham: Science

- Welcome back to school! For those of you who I did not meet at the open house, my name is Cindy (Malik) Cunningham. I am a Nemo Vista alumni from the class of 1991. This will be my 31st year as an educator. I am moving from being a high school math teacher this year to being a 5th grade science teacher. I will also be in charge of K-12 gifted and talented. I am very excited for my new position! This week I will just be getting to know my students and discussing rules and procedures.. Please feel free to contact me any time with questions or concerns. I love to communicate before anything turns into a problem.

5th Grade News

- Please remember that all cell phones, smart watches, and other bluetooth devices must be turned in to the designated phone pouch during the school day.
- Breakfast is free for all students this year! Students will pick up their breakfast in the cafeteria, then eat it in their homeroom class.
